LIST OF D. P. W. SUBJECTS.

HASSAN DISTRICT.

Subject and speaker.	Summary of discussion	Reply of Govt.
Subject No. 299 Re-construction of an ane across Badari river near Belur. Mr. Kesava Dasa Iyengar of Belur Taluk.	The old ane at Ranghatta, across the Badari river, near Belur, may be reconstructed and a nala taken from it up to Hassan. This will bring a large area of land extending over ten or fifteen miles under irrigation.	The subject is being investigated by the D.P.W.
Subject No. 300 Repairs to Anekere Chikkere tank. Mr. Padmarajaiya of Channarayapatna Taluk.	The Anekere Chikkere tank may be repaired as it is useful both for the villagers and for cattle. This tank has an atchkat of Rs. 500.	D. P. W. will expedite.
Subject No. 301 Repairs of certain large tanks in the Channarayapatna Taluk. Mr. Padmarajaiya of Channarayapatna Taluk.	The following are among the large tanks in the Taluk yielding a revenue ranging from Rs. 500 to 2,000, *viz*; Anati, Nowle, Papanaghatta and Chalya. It is requested that orders may be issued to the D. P. W. directing the execution of timely repairs to them.	Referred to D. P. W.
Subject No. 302 Construction of Hosur, Muttagada Honnenahalli & Kabbal Tanks. Mr. Padmarajaiya of Channarayapatna Taluk.	The construction of new tanks at Hosur, Muttagada Honnenahalli and Kabbal is desirable as each of them would yield a revenue of Rs. 2,000 or 3,000.	D. P. W. is investigating these projects.
Subject No. 303 A water-supply scheme for Arkalgud. Mr. Venkataraya Chetty of Arkalgud Taluk.	There is a tank at Arkalgud midway between the fort and petta; but as it is on a lower level than the town, the wells in the town fail during the summer. Want of water is keenly felt both by the people and by cattle. A water-supply scheme is therefore desirable. The people are ready to pay a contribution of Rs. 5,000 towards the cost of such scheme.	It will be investigated by the D. P. W. (Sanitary Branch).
Subject No. 304 Water-supply to Banavar. Mr. Rama Sastri of the Hassan District Fund Board.	Banavar in the Arsikere Taluk is a large village with a population of nearly 3,000 who suffer much from scarcity of drinking water. A channel may therefore be excavated for the purpose of diverting the surplus kodi water of Devanur Tank to the tanks of the village.	To Sanitary Engineer for investigation.
